Mr Geoff Homann  
Director  
O3 Wash Pty Ltd  
PO Box 373  
DRUMMOYNE NSW 1470

10 February 2005

Dear Mr Homann

Thank you for your final report and financial statement as required under the Industry Partnership Program (IPP) for the project "An on-site evaluation of Ozone laundering in the nursing home industry".

The Manager of the Cleaner Industries Unit, David Trewin, has reviewed the documents and has advised that the project milestones and deliverables outlined in the Deed of Agreement dated 6 December, 2002 have been satisfactorily met. Further, all financial payments pertaining to the project have been made and are accounted for.

The project achieved significant cleaner production outcomes for commercial laundries, which the Department of Environment and Conservation (DEC) is pleased to acknowledge. In particular we would like to acknowledge the use of ozone technology achieved:

- A 62% energy reduction and a consequent reduction in CO<sup>2</sup> emissions;
- A 15% reduction in water use, saving 1,100,000 litres per year; and,
- A 15% reduction in chemical use leading to improved wastewater quality.

The DEC would like to take this opportunity to congratulate you on delivering a successful project and hereby acquits your contractual requirements under the IPP. We look forward to continuing our working relationship with O3 Wash.

Yours sincerely

**MICK O'FLYNN**  
**A/Director Education Services and Community Programs**
